

With so many organizations  
to choose from,  
what sets **Interserve** apart?

## 1 Our focus

We work exclusively among the peoples of Asia and the Arab World, working among the 25% of the world that has yet to meet a follower of Jesus.

## 2 Our Partners

We leverage our professional skills. We prize integrity and authenticity. Where we work, visas and credibility are hard to come by. Our commitment to excellence in our professions enhances our witness for Christ and enables us to make valued contributions to the people we serve.

## 3 Our teams

We come from 20 countries. Our teams are intercultural and interdenominational. They represent the beauty and diversity of Christ's body. Having teammates from other countries teaches us humility and helps us overcome our cultural blindspots.

## 4 Our structure

We are field-led. We believe people on the field are the ones best able to make wise decisions about how to represent Jesus in their context.

## 5 Our history

We've been at this a long time. We were founded by women more than 165 years ago. Today our Partners benefit from our wide networks and deep experience.
