

VACCINES

01 ENTRY REQUIREMENTS

YELLOW FEVER

TYPHOID

- Some countries require specific vaccinations for entry, with Yellow Fever and Typhoid among the most common. Destinations such as Kenya, Uganda, Liberia, India, and Ghana may have vaccination requirements depending on current regulations and your travel itinerary.
- Many African and Asian countries may have requirements.

DESTINATIONS THAT MAY HAVE REQUIREMENTS

Kenya

Uganda

Liberia

India

Ghana

02 HOW WE MONITOR

TRAVAX

- Short-Term uses Travax, the same travel-health information service used by many hospitals and travel clinics, to monitor current vaccination and entry requirements.
- Short-Term continuously monitors for updates through the time of departure.

03 COST AND CLINICS

NOT INCLUDED IN TRIP COST

- **Vaccination costs are not included in the trip cost.**
- Your medical provider may recommend visiting a Passport Travel Clinic, as many primary care offices do not provide travel vaccinations.
- These services can be expensive, so please contact Short-Term Logistics for information about discounted pricing available through a local provider.
